

EXTENSION WINGS

GreensGroomer Extension Wings attach to any existing GreensGroomer and doubles the effective width of the Groomer. Both the brush layout and weight of the Extension Wings mirror that of the GreensGroomer, assuring accurate, consistent brushing the entire width of the unit.

The Extension Wings also float up and down, following undulations on greens and fairways – with the same patented brush layout without gaps in the brushing area.

Equipped with white Heavy Duty brushes, this unit is perfect for fairway brushing, breaking up large aeration cores easily. The electric actuator raises and lowers the wings for transport and use, with a manual adjustment for long distance travel.

SPECIFICATIONS*

| | |
|----------------|--|
| Model | 924, 924HD, or 924SD |
| Main Frame | 2 inch square tube (11 gauge) with 1-1/2 inch (10 gauge) Square tube cross bars |
